Let's start with a bit more on the animal. A javelina is a New World pig, *Tayassu tajacu* in Latin. More
specifically this is a collared peccary; there are two, maybe three other species of New World pig wandering
around in Central and South America.

Within evolutionary biology, signalling theory is a body of theoretical work examining communication between
individuals, both within species and across species. The central question is when organisms with conflicting
interests, such as in sexual selection, should be expected to provide honest signals (no presumption being
made of conscious intention) rather than cheating.

This article is a major update to my previous review of Rocket Languages (updated for the new 2018
edition).. I've had to adjust some of the harsh criticisms below I made in my earlier review of their

courses because the new edition has fixed or removed most of the major flaws I pointed out earlier (Iâ€™ve also included a video below).
