to catch a rat pdf

A mousetrap is a specialised type of animal trap designed primarily to catch and, usually, kill mice. Mousetraps are usually set in an indoor location where there is a suspected infestation of rodents. Larger traps are designed to catch other species of animals; such as rats, squirrels, other small rodents, or other animals.

Mousetrap - Wikipedia

Spring traps for large rodents such as rats or squirrels are powerful enough to break the animal's neck or spine. They may break human fingers as well, whereas an ordinary spring-based mousetrap is very unlikely to break a human finger. Rat spring traps may not be sensitive enough to spring when a mouse takes the bait.
