Why do people use information technology? A critical review of the technology acceptance model

Why do people use information technology? A critical

A management information system (MIS) is an information system used for decision-making, and for the coordination, control, analysis, and visualization of information in an organization; especially in a company.. The study of management information systems examines people, processes and technology in an organizational context. In a corporate setting, the ultimate goal of the use of a ...

The technology acceptance model (TAM) is an information systems theory that models how users come to accept and use a technology. The model suggests that when users are presented with a new technology, a number of factors influence their decision about how and when they will use it, notably:

Technology acceptance model - Wikipedia

Thank you for the reminder of how to really use technology in our classrooms. Technology can be such a great tool in the classroom, but it is just a tool that needs to be used appropriately.
