Virtual reality (VR) is an interactive computer-generated experience taking place within a simulated environment. It incorporates mainly auditory and visual feedback, but may also allow other types of sensory feedback like haptic. This immersive environment can be similar to the real world or it can be fantastical.

IMS Health and Quintiles are now IQVIA. We are committed to providing solutions that enable healthcare companies to innovate with confidence, maximize opportunities and, ultimately, drive healthcare forward. We do this via breakthroughs in insights, technology, analytics and human intelligence that bring the advances in data science together with the possibilities of human science.

A New Path to Your Success Via Human Data Science - IQVIA

A virtual retinal display (VRD), also known as a retinal scan display (RSD) or retinal projector (RP), is a display technology that draws a raster display (like a television) directly onto the retina of the eye. The user sees what appears to be a conventional display floating in space in front of them.

Virtual retinal display - Wikipedia

Welcome to Histology at SIU SOM. This site provides histology resources serving the Southern Illinois University School of Medicine Year One Curriculum.. About this resource (pdf). Accessibility: Because the content of this website is essentially image-based (i.e., images are the content), "alternative text" is not used for most images.
